

JOHN ROMIE O. REYES

96 Purok 3, Pulung Cacutud, Angeles City, Pampanga, Philippines | +63955 0516 084 | johnromie37@gmail.com

SUMMARY

Software Engineer with a 2-year track record of designing and implementing software solutions. Proven ability to work with third-party APIs and collaborate with other engineers. Experienced in collecting user feedback and delivering high-quality products to clients. Committed to continuous learning and growth in the field of software development.

PROFESSIONAL EXPERIENCE

Hooli Software

Software Engineer

Marilao, Bulacan 3019

June 2022 - Feb 2024

I have been working as a software engineer at Hooli Software for almost two years. I am highly knowledgeable in ReactJS, TypeScript and how to integrate RESTful APIs. I am good at Golang and also JavaScript, SQL, and several libraries and frameworks that make one able to make the best softwares possible.

- Demonstrated expertise in building dynamic and interactive web applications using ReactJS.
- Applied strong proficiency in TypeScript to ensure type safety, improve code quality, and enhance debugging processes.
- Successfully integrated numerous RESTful APIs, facilitating seamless data exchange and enhancing application functionality.
- Excelled in designing reusable and efficient React components, promoting code reusability and reducing development time.
- Leveraged ReactJS and TypeScript in full-stack development, contributing to both front-end and back-end aspects of projects.

Hooli Software

Software Engineer (Intern)

Marilao, Bulacan 3019

Mar 2022 - June 2022

Software Engineer Intern with a 3-months of experience at Hooli Software, where I gained hands-on experience in ReactJS, TypeScript, and integrating RESTful APIs. Demonstrated ability to work in a fast-paced environment and deliver high-quality code.

- Assisted in the development of user interfaces using ReactJS, contributing to various projects and gaining hands-on experience.
- Utilized TypeScript for static typing in various projects, enhancing code readability and maintainability, and learning best practices.
- Gained experience in integrating RESTful APIs into applications, improving data flow and functionality.
- Developed reusable React components under supervision, learning the principles of component-based architecture.
- Collaborated with senior developers and participated in code reviews to improve TypeScript and ReactJS skills, demonstrating a strong commitment to learning and professional growth.

EDUCATION

City College of Angeles

Bachelor of Science in Computer Science (BSCS)

Arayat Blvd., Barangay Pampang, Angeles City, Philippines

2018 - 2022

TECHNICAL SKILLS

Programming Languages: Golang, JavaScript, TypeScript, SQL

Libraries, tools and frameworks: React, Redux, Redux Saga, Axios, Jotai, React Query, Tailwind CSS, Gin, GORM, Revel, Jira, Git, Docker, OAuth, RESTful APIs

Databases: PostgreSQL, DynamoDB
